

Assisted Living Suites

at Cambridge Place

CAMBRIDGE PLACE

SENIOR CARE

Independent living means independent style.

Each suite has a full bath with shower.

Maintaining Independence

At Cambridge Place Assisted Living, we place the emphasis on living. We help our residents maintain their independence by matching the appropriate level of health care to the individual's abilities.

With nearly three decades of experience, we know what it takes to make residents live comfortably and peacefully. Cambridge Place's environment is warm and home-like with excellent dining and health care support. It is holistic support for daily living that is provided by well-trained staff who find joy and satisfaction in serving others.

Our all-inclusive assisted living features no buy-in or entrance fees. Our apartments feature comfortable floor plans, three meals a day, weekly laundry and housekeeping. Nursing care and supervision are provided as resident needs dictate. Licensed nurses and certified nurse aides are on duty 24 hours a day.

All Cambridge Place assisted living apartments have a view to our outside courtyard or the park. Each apartment has a full bath with shower. And, while we can furnish them for a resident, we really encourage residents to bring their own furnishings. We want everyone to feel comfortable and at home.

Meet the residents. See the suites. Taste the food.

The best way to get to know Cambridge Place is to see our community up close. To schedule a visit, call us at 785.562.5321.
